The first legal meeting under the State laws of the Bar Harbor Co-Operative Company was held in the store in the Ash Block, on Cottage, street last Saturday evening, and a permanent organization affected. A code of by-laws drawn up by the proper legal authority was discussed and adopted, and the following officers of the eorporation elected for the ensuing year: President, Charles F. Paine; Vice-President, George W. Graves; Treasurer, Edwin C. Parker; Clerk, Osmond Emery; Directors, Charles F. Paine, George W. Graves, William Clark, John N. Harriman, John E. Savage.

At the Republican caucus held in the Town House, in Sullivan, Saturday evening, April 9, Wilson H. Simpson, Joshua B. Johnson and George G. Patten were chosen delegates to attend the convention at Bangor, April 27, James S. Lord, Moses Hawkins, William P. Goodwin R. Dowoing, Geo. H. Tracy and Henry Boynton were chosen as Republican town committee.

There is a movement on foot among Har Harbor citizens to raise money to provide a suitable place for the \$1,000 town clock so generously provided for the town by the Village Improvement Association to which fund the late Mrs. Tucker, of Boston, subscribed \$800. While it would undoubtedly be advantageous to locate the clock on Main street, no suitable place can be secured as both the hotel owners have refused to allow it to be placed in the There is a movement on foot among Bar be secured as both the hotel owners have refused to allow it to be placed in the towers of their buildings. The trustees of the Congregational church are willing to allow it to be placed in their church tower, provided enough is subscribed to build up the tower to a suitable height, and a proper architect is employed to design and supervise the new tower.

A subscription paper has been started and very liberally signed by some of our leading citizens. It will cost several hundred dollars to do this in proper shape. The clock proposed is a large eight dial illuminated face clock of the Seth Thomas make, and would be an ornament to any town or city.

make, now town or city. The Boston papers state that the office of Heary F. Dearborn, the North reburn overalls manufacturer, who mysteriously disappeared March 15, are being investigated by his relatives. Dearborn's disappearance has made considerable of a stir in Woburn and vicinity, and many conjectures are advanced by those who were sequainted with him as to where he is keeping himself out of reach of Boston creditors. Dearborn was well known in Chelsea, where he was in business, and in various cities in Maine. At Camden, in the Pine Tree State, he four years ago married Miss Jennie McNamara, who left his roof in North Woburn on Christmas day, taking with her one of the two children, while Dearborn retained the other, a three-year-old girl, who recently found a home with her mother at the parental residence down East. It is asserted, and with some apparent reason, that Dearborn has killed himself. Isaac Dearborn of 193 Walnut street, Chelsea, is quoted as saying that his nephew has probably committed suicide while despondent, and Mrs. Isaac Dearborn is also said to incline to the saided theory. When the missing man started in business in Chelsea he appeared to his acquaintances at times to act in a peculiar manner. A sickness seemed to aggravate his nerves and he was often not himself.

George Sylvester, of Norway, while at work for B. Cummings & Son, sawing shingles, was caught in the stating and instantly killed Wednesday afternoon at about five oclock. It is supposed that he was trying to throw off the belt. He was wound around the shaft and horribly mangled. He leaves a family. Washington.

Steamer Lubec, Captain Edgecomb, gally decked with flags, and the Lubec Brass Band, furnishing most excellent music, gave, as is the management's usual custom, free excursions to their patrons all day Tuesday, making trips to all landings. If the crowds that occupied every hit of available space on the steamer's decks, is any criterion, the coming season is to be a busy one for this line. On one of her early afternoon trips, and when the steamer was most densely crowded with excursionists, Mr. H. J. Reynoids succeeded in getting a fine picture of her as abe attended away from the dock at Eastport.

### FOR MAYOB: FLAVIUS O. BEAL.

The New York World declares that it is time to call a halt in the abusive attacks upon Senator Hill, especially now that it 21 Main Street, is perfectly clear that he is "really not in the race." This is not a very valuable concession to the Senator who may resent these friendly advances, "especially now that it is perfectly clear" that they have withheld until his Presidential boom has MildCurec. Hams

The Democratic ring in Jorsey City has met with a crushing defeat. In the last election for Governor two years ago, this city gave a Democratic plurality of over 8,000, but this spring the Republican candidate for Mayor was elected by a plurality of nearly 3.000. This Republican Stalls I and 2, Central Market House, awakening makes the State good fighting ground in the fall campaign. Four years go the Republicans carried the State outside of Hudson county by 1,020 plurality.

A London despatch says that workmen have been discharged from the establishment of the Land Ore Tin Plate Company which owns the oldest and largest works in South Wales. This action, the despatch says, was due to the depression of trade resulting from the operations of the Mc-Kinley tariff law. Just now when it is made clear that the effect of the protection afforded in the new tar ff law is to build up an industry that will supply this country with tin plate used here, the Demextatic House proposes to remove the duty and send the trade back to Wales again. It is fortunate for the country that the Republicans are in a position to prevent this Democratic move in the interest of the foreign manufacturer.

Transparent Mr. Bass.

The rapidity with which the Commercial changes its position is extremely laugh-able. Thursday it had something to say about independent voting, but in view of the complete exposure of the opinion entertained by Mr. Bass on that question his paper wisely concludes to drop the subject. It also had something to say about the tariff, but THE WHIG promptly exposed the utter ignorance of the Comsercial writer which he now confesses by his inability to continue the discussion, to the great amusement of the community.

As if it had not already made itself sufficirntly ridiculous, it now attempts to instruct the Republicans as to their duty in the coming election. Any one but Mr. Bass would realize that the motive for his performance is absolutely transparent, but he is so thick-skinned that he deludes bimself with the idea that he is playing a sharp game. The talk about the caucus a sharp game. The talk about the caucus press fields WA TED being packed with Democrats s without foundation. There may have been a few Democrats in the caucus, as some members of that party usually force their way into a Republican cancus, but the overwhelming majority of the voters were Republicans and they supported the nomination of Mr. Beal. In this statement we 🚹 🦜 are sustained by the chairman of the cau-

There were two candidates presented so that every one had an opportunity to express his choice, and when the result was announced the nomination of Mr. Beat was made unanimous without a dissenting voice. It is therefore a perfectly clear nous nominee of the party is entitled to Paid Up Cash Capital, \$600,000 the support of the Republicans. Had the phoice fallen upon his competitor in Surplus and Profits. the cancus every one would have contendbound to stand by the nominter More-lay in paymen of interest or principal. over they would have been entirely just-Business established in 1875. fied in their demand, but it is a poor rule that does not work both ways.

Mr. Bass. We will say for the benefit of that small minded individua, however, that it is no secret that the writer of this article did not vote for Mr. Beal in the CAUCUS. The caucus is the place for an Blake, Barrows & Brown, expression of individual views in the selection of a candidate, but; when the caucus has decided by a majority vote, then individual views should give way to majority rule. When the caucus decided in favor of Mr. Beal we accepted the decree of the majority and have given him the same support that we should have given his competitor had he been nomistuplifity the Commercial has simply strengthened our position.

In order to appreciate the shaudity of the attitude now assumed by the Commercial, it is only necessary to recall the vehement language with which it assalled the Cleveland men in New York for refusing to accept the action of the convention which elected Hill gelegates as binding upon them. In that case moreover the Cleveland men had a ground of complaint the fact that the convention ASSETS, DECEMBER 3, 1981. was called earlier than usual morder to secure a "snap judgment," but this made no difference in the opinion of the Comno difference in the opinion of the Com-merrial which declared that all loys! Dem-

subterfuge which will not deceive a single voter. Now we would suggest to our contemporary that instead of bothering its little head about THE WHIG, it will find a fruitful field for labor in trying to secure the support of its own party for the Democratic candidate. His lack of shed fact. For weeks the party manalished fact. For weeks the party mana-gers, or a portion of them, have been at work in an effort to heal the breach.

What hear the Commercial done to help on What has the Commercial done to pelp on this work? What is the cause of this D. M. HOWAIG breach? Is it the fault of the party, or the fault of the candidate? If the candi- Office No. 3 Exchange Bloc (, date is all, that the Commercia would have us believe, then the party is unable to appreciate him. Suppose jus for a change the Commercial devotes a little time to the explanation of this conundrum.

Prudence and oresign. I take it that the arst virtue that life insurance encourages is that presence and foresight which looks to the foture and sceles to make provision for it, and the next that economy and thrift which makes such a provision possible, and that after, both of those virtues comes that of forgetfulness of self, that sympathy and unselfahases which seeks to provide for the helpless and dependent: the days of powerty, solaness and dependent: the days of powerty, solaness and dependent; the days of powerty, solaness and dependent; the days of powerty solaness and dependent; the days of powerty solaness and dependent; the days of powerty solaness.

## Lard as a Life-Saver

The school boy's composition asserted that pins had saved the lives of many people by their not having swallowed them; so lard has saved the lives of thousands by their having avoided food of which it forms a part. Hog's lard is responsible for much indigestion and dyspepsia, as any physician will tes-

tify, hence TELENE **J** • has been introduce: to take

the place of lard. There is no secret as to its composition. It consists only of highly refined Cotton Seed (Oi), and Beef Sust. Clean, delicate, healthy and economical. Lard has had its day, and a greasy day it was. When next about to use lard, -Don't, but try Cottolene. At leading grocers.
